

FILE: For the broken hearted 3

## **In Search of God**

Sometimes one can feel like a hypocrite after living in today's world. Whole family values do matter.

Shipwreck and graveyard of the pacific.

For those thugs or brawlers who lie (lawyers and politicians), cheat, steal, or murder there is a judgement after you die. Lawyers and politicians lies are causing people to stumble.

All cultures believed there is a spirit world. We will all someday be a part of it. Live your life to the fullest. This appears to be a real gravitational phenomenon. It came from a God filled church with the spirits of God. I tried to write what was given to me the best I could. The devil intervened a lot and I tried to straighten the work out best I could. Put your best foot forward and turn from your sins and God will try to help out. Jesus is there for those who have lost their way. Just say no to the bad things or evil people.

Spare the rod and spoil the child still works today. If you don't do it the right way, it is wrong.

You must follow to receive all Gods blessings. To each their own. I fall short and sin. Thankful Jesus intervenes. Sometimes Jesus seems to not be there. Have a little faith. Read the gospel, it helps guide our thoughts. I almost lost everything because I did not follow very well. I had a pastor that had the love of money. He wanted tithes and offerings before I paid my taxes. I had nothing left to work with.

You have to be a saint to do this type of work and I am not.

God's spirit gave this work to me to open the eyes of the blind.

I had really bad luck not just from the devil intervening. The bible is a living bible that gets very complicated and difficult. Just stay close to God's son and he can help. Seek your doctor for healing.

A little speculation:

Genesis 9:12-13 God said he would never destroy the world by water and placed a rainbow in the heavens as a signature. The rainbow is the signature of the elements (atomic spectra of the atoms) burning on the sun. Zechariah 14:12. Nuclear roll back of the atmosphere: Their eyes rot in their sockets and they died before they hit the ground. It happened already in Hiroshima and Nagasaki Japan during WW2. Revelations 6:14.

Before God there was a random undulating field. The undulations added in such a way in harmonics that the first element hydrogen was formed. First hydrogen was formed then one by one the others. Life began in this way. The elements grew and acquired intelligence.

Their might be a Green Planet in man's future.

For the broken hearted, or shipwrecked lives.

Turn from your sins, get saved, born again by the blood of Jesus Christ. Gods Holy Spirit will comfort you in times of trouble.

AI (artificial intelligence) an algorithm al programs will be developed to mimic love. And placed in Androids.

Nuke suitcase time bomb carried across border into California.

Open the Eyes of the Blind. Jesus died to help out. HAVE A LITTLE FAITH.

Did man walk with the dinosaur? Job 40:15 Behemoth described that has a tail like a cedar tree.

There are no creatures other than the dinosaur that has a tail like this.

Job 41:15-21 Job describes the Leviathan; Out of his mouth goes burning lamps, smoke, and flame out of his mouth. If two quartz rocks are rubbed together one gets sparks. Methane gas is common bi-product from animals. If a large creature has eaten rotten meat, methane gas from the stomach of such a large creature that is crunching on small pebbles of quartz would ignite the methane when the animal burps out the methane gas resulting in a flame of fire spewing from his mouth. This would be like the fables of fire breathing dragons. Chickens eat small pebbles to help digestion.

When in doubt cast it out. You must follow. To each their own.

A little speculation:

Genesis 9:12-13 God said he would never destroy the world by water and placed a rainbow in the heavens as a signature. The rainbow is the signature of the elements (atomic spectra of the atoms) burning on the sun. Zechariah 14:12. Nuclear roll back of the atmosphere: Their eyes rot in their sockets and they died before they hit the ground. It happened already in Hiroshima and Nagasaki Japan during WW2. Revelations 6:14.

Genesis 9:12-13

God said he would never destroy the world by water and placed a rainbow in the heavens as a signature. The rainbow is the signature of the elements (atomic spectra of the atoms) burning on the sun. The below sounds like a nuclear war.

Zechariah 14:12. The nuclear roll back of the atmosphere. Their eyes rot in their sockets in their and they died before they hit the ground. It happened already in Hiroshima and Nagasaki Japan during WW2. Revelations 6:14.

I hope God can forgive me for my sins.

Artificial intelligence takes over: Artificial Intelligence modules controlling cars/trucks could get a virus nation-wide, crippling the shipping industry and delivery of goods.

After a bout with the real devil, a spirt. God gave me this to open the eyes of the blind. I did the best I could with what I received coming in. I researched the thoughts that came in. The devil continued lying to me intercepting and altering the scientific facts from God. This was because I still had some sin left in my life. God gave me this stuff to open the blind eyes.

Here I was through all these unusual events during my life. Even a lightning strike occurred.

Life can be difficult. Turn away fully and get re-born to start a new life.  
There are a bunch of lies out there. These people will be held accountable in their afterlife.

There will be a Ray of Hope. Don't give the devil permission, control your thoughts. The devil lies. Bind the strong man in Christ name, you can google this.

Jesus went to hell and granted salvation to the righteous that had previously died and went to hell.

Most of the scriptures were written years after Jesus died. But many of the stories are still valid today. There has been a lot left out of the scriptures in my opinion. I can't say what they are. Much is still valid today.

It's a living bible live as you like. He is a personal god right now he will only come back in the last days unless you call for him. He will help us even unto your death.  
Some atheist had scriptures confused. All in all, we do the best we can. God be with you.

I tried to stay away from a bunch of stuff. I got too high up and got into trouble.

DNA Proof for Adam and Eve. There are the lost scriptures of the bible that explain how we have this great freedom. The earth has been destroyed several times by floods. The rainbow was placed in the sky to I will never again destroy the earth by water and he signed it with the rainbow. The rainbow is the atomic spectra from the atoms in the sun. Does this mean the earth could be destroyed by the atom? I hope not!

Some of the scriptures seem to have been misinterpreted. I am not a minister but can have some opinions. Regarding tithes before or after taxes, and the financial Increase or decrease. If we consider our increase based on the accounting view of finances, then our tithe is based on what we have left over after paying our living expenses, and not on before or after taxes. It also belongs in our land as the scripture says. I gave my tithes before taxes and found I had no working capital left over. How ever since I was not a good Christian, I assumed God just took it away from me as the scripture says, even that will be taken away. So, I almost lost everything except this work. Which took years to come in from above. Now days most believe tithing is voluntary.

No one is perfect, we all make mistakes, thank the blood of Christ we are saved. Work out your own salvation through him. The bible having many authors is a helping force. It's a confusing book. Live life to the fullest, follow your dreams. You don't have to be a slave to God. The bible is a guiding light.

To each their own, but those who feel they are way broken hearted or those who feel they have a shipwrecked life and need this kind of help. A lot of this came from the man upstairs, by way of visions and dreams. The devil crept in and interfered with my work. Thank the blood of Christ and the Holy Ghost that a lot was straightened out. It got way too complicated for me and took a lot of years. If feel you are lost or have a shipwrecked life, stop lying, stealing, and murdering and turn from your wicked ways. Get saved, baptized and born again in the spirit. God forgives. Take care of your new guiding spirit. All things become new again. We could lose our freedom if we don't turn away. The end times may come in the 2040's. We have the hope of salvation don't lose your faith god will be with you. Sometimes I feel like a hypocrite. Thank God someone upstairs tries to intervene. It's a living bible so live your life. He is a personal god. There was an atheist and scholar who witnessed and told us his story about his spontaneous combustion happening to his legs, he panicked and tried to get it to stop. He tried to put the fire out on his legs but I kept coming back, as a last resort the atheist prayed. Later he received Christ.

I tried to enter into God's holy temple but only got part way when I backslid and fell from the upper spiritual levels. I heard the drums of hell pounding. A spirit fell with me and we both called out to Jesus Christ for help. We were both pulled up to a higher level. I could not enter into God's temple again.

Jack McArthur studied the lineage of Jesus and found there was a lady of the evening in Jesus's early lineage. Mary Madeline was similar having seven demons, and Jesus delivered her. Go straight for seven days, get baptized, washed clean and all things become new again. Being young at heart again, as God will put a new spirt in you that you will take care of. A guiding light to help you on your new life. Stay out of trouble if you get into trouble god will help you out. Give him a chance to help if you need it. Born again all things become like new. If you're an alcoholic go to AAA and don't turn back.

All things are in effect. If you want your family to be whole then stays close to the principles of god, both you and your husband.

Some people waking with Gods spirit can detect things. Most or the entire bible was written my men as moved by the Holy Spirit. Look up golem. Without these men things can go wrong. We need to keep our nation whole.
